Outlook & Valuation

ICICI Bank continues to deliver steady core profitability with core operating profit growth of 6.5% YoY, supported by healthy loan growth across retail and business banking segments and a well-capitalised balance sheet (CET1 of 16.35%). Asset quality trends remain favourable, with net NPA ratio improving sequentially and provision coverage steady at 75%. Moderating margins and rising cost-to-income are worth monitoring, but the overall franchise strength supports a constructive stance. We rate the stock BUY with a target price of Rs 1,650.
